

Agriculture Packaging Solutions

WHY CHOOSE US?

Farmers, harvesters, and nursery growers need to produce and protect quality crops to yield top-dollar.

MDI sustainable corrugated plastic containers work to cushion, transport, and display fresh produce, nuts, seedlings, and flowers. Ideal for field harvest picking trays and carriers, during in-plant storing and stacking, inside hot or cold processing facilities, and while transporting or displaying.

Tree Wrap: Two-sided Tree Wrap for sunlight reflection or deflection.

CORRUGATED PLASTIC

- Delivers protection & reduces damage
- Provides convenient stacking & nesting
